

This summer the Borger Medical Clinic will be offering “school physicals” throughout the summer instead of having just one night designated for physicals. You will need to call the clinic and make an appointment for a “school physical.” The cost will be \$35.00. The providers will only address the school physical and cannot treat/give vaccines during these visits.

Physical forms will be available at the clinic, in the main office of the high school and the athletic office throughout the summer. If students are participating in athletics in 2016-17, they will need to have a new physical because BISD requires a new physical each year. To schedule your “school physical”, call 274-3627.
